

The Daily Courant.

Monday, December 14. 1702.

From the Amsterdam Courant, dated Dec. 16.

Vienna, December 2.

TWO days ago the Imperial Court went to the Cathedral of St. Stephen, where *Te Deum* was sung for the Success of the Allies at Vigo, the like is order'd to be done throughout the Hereditary Countries. Count Schlick continues still here, the Emperor resolving to have Prince Lewis of Baden's Opinion in what manner to act against the Elector of Bavaria, before he give his last Instructions for attacking him. Mean time Orders are sent to Count Solari to observe the Motions of the Bavarians on the Frontiers of the Bishoprick of Salzburg.

From the Harlem Courant, dated Dec. 14.

Berlin, Dec. 5. They write from Breslau, That the 8000 Saxons are in full march towards the Frontiers of Bavaria; and that for the greater Expedition the Infantry is carried in Waggons.

From the Amsterdam Courant, dated Dec. 19.

Vienna, Dec. 6. On Monday last several Waggons were sent from hence with New Cloathing for the Troops in Italy, from whence a great many Officers are arriv'd, to fetch the Recruits which are rais'd by the Hereditary Provinces: These Levies are to amount to 15000 Men, and are very near compleated; after which those Provinces are to raise some Thousands more. Some pretend that the Preparations of this Court against the Elector of Bavaria are retarded for want of Money. A Courier arriv'd to day from the Prince of Baden.

From the Paris Gazette, dated Dec. 9.

Letters from Italy of the 23d of last Month say, That the Duke of Vendome had been then in Mantua 3 days, to give necessary Orders about that City and the Country adjacent. He has augmented the Garrison of Borgoforte to 1000 Men, and caus'd the Troops that are dispos'd on the Oglio, and in other Quarters on this side the Mincio, to move nearer to the Enemy. He is contriving likewise to streighten the Imperialists that are quarter'd on the Left of the Po, by 2 Lines of Troops; the first of which is to be form'd of those that will be posted at San Martino, Poleso, and other places along the Canal call'd Fossero, which runs from the Mincio above Governolo as far as Tor di Mezzo near Ostiglia. The other Line will extend from Mantua to Due Castelli, and Castellaro. Prince Eugene of Savoy sent a Trumpet to the Duke of Vendome, to reclaim Count Malvezzi Lieutenant Collonel of the Regiment of Lorrain and Governour of Borgoforte, with that Garrison: But the Duke return'd him this Answer, That he would not deliver them, till according to the Conditions of the Cartel, the French Prisoners who were carry'd into Hungary were restor'd.

From the Paris Gazette, dated Dec. 16.

Letters from Strasburg of the 6th say, That the Army commanded by the Marshal de Villars was still canton'd about Saverne, but that it was thought they would soon be dispos'd into Winter-Quarters, on the Frontiers of Lorrain and in Alsatia. The Garrisons of Newburg and Hunningen make Incursions as far as Friburg and Rhinfeld. The Troops which

were sent to Bischweiler on the River Moter, are working, by order of the Marshal de Villars, to fortifie it. 'Tis advis'd, That General Palfi having posted himself, with the 500 Hussars that he had left, in the little Town of Saulgen, on the South side of the Danube, between Koningseck and Buchaw, was attack'd and put to the Rout by a Detachment of the Troops of Bavaria, with the loss of a great number of Hussars kill'd or taken Prisoners.

They write from Metz, That all the Troops which march'd out were return'd thither, except the Garrison which the Count de Tallard has left in Nancy with the Marquis de Hautefort till further Orders from Court. Some Regiments are raising in the Bishopricks of Metz, Toul, and Verdun, with great Succes. The Count de Tallard set out from Metz on the 6th for Versailles.

From the Paris Gazette, a la main, dated Dec. 8.

They write from Nancy of the 1st instant, That Monsieur de Callieres had represented to the Duke of Lorrain, That the posture of the King's Affairs in the present Conjunction, together with the Neighbourhood of his Enemys, constrain'd his Majesty, against his Inclination, that he might prevent them, and frustrate their Designs, to desire his Royal Highness to consent to his putting a Garrison into Nancy, to secure that important Post, and to receive 2500 Men into the rest of his Dukedom; assuring his R. Highness, that those Troops should be no Charge to his Subjects, but should pay in Money for what they want. 'Tis said, The Duke, after having express'd a mighty Surprise, that it should be put out of his power to preferve his Country in a Neutrality, made answer, That being unable to dispute the King's pleasure, he desir'd his Majesty not to take it ill, that he acquaint the Emperor with the whole proceeding, and assure his Imperial Majesty that it was without his Consent. To the proposition of retiring into France, and the offer of 3 Millions, he reply'd, That it was unbecoming the Dignity of a Sovereign to abandon his Dominions, and that he would reside at Luneville. The Letters add, That it was the Report at Nancy, that one of the Conditions propos'd to his R. Highness, is, That his Majesty would rebuild the Fortifications of that City at his own Charge, for which a Million lies ready at Metz, with 100000 Crowns to carry on the Fortifications of Toul.

They write from Versailles, That the King has signified to all the Forreign Ministers, That he has been oblig'd to proceed in this manner with the Duke of Lorrain, by way of Reprisal on the Enemy, who have violated the Treaty of Neutrality concluded not long ago with the City of Cologne.

From the Paris Gazette, dated Dec. 9.

Paris, Dec. 9. They write from Bourdeaux, That a Vessel which left Martineco on the 6th of Sept. reports, That a Privateer belonging to that Island had taken 2 English Prizes, one of them a Frigat, and the other laden with Sugar valued at 50000 Crowns: That another Privateer of that Island had brought in thither an English Pacquet-Boat carrying 8 Guns and 40 Men: And that the King's Frigat the Dangereuse had taken an English Ship laden with

with Sugar. He has likewise brought the News, That part of the Squadron of Admiral Bembow, attempted to make a Descent at Petit Gouave and Leogane, in the Island of St. Domingo, but were repulsed; but that nevertheless they took 3 Ships, and forc'd some others to run aground.

From the Paris Gazette, dated Dec. 16.

Paris, Dec. 16. The Falcon is arriv'd at Port Louis from the Havana, and brings Advice, That the Soldiers who were sent to that place by the King of Spain were landed, and that the Duke d'Albuquerque Viceroy of Mexico, arriv'd there on the 31st of September, with the Forces and Ammunition which he is carrying to Vera Cruz. This Vessel reports likewise, That the Sieur du Caffe going to Cartagena with 4 Men of War and 3 other Ships, in the way met with 7 English Men of War commanded by Vice Admiral Bembow: That he maintain'd a running Fight with him for 8 days; and afterwards got into Cartagena, losing only an English Prize which he had taken some days before.

The King of Spain arriv'd at Arles on the 3d instant.

From the Amsterdam Courant, dated Dec. 12.

Liege, Dec. 8. This Evening a Detachment of 400 Foot of the Imperial Regiment of Walloons commanded by the Baron de Trogne, with some Horse and Dragoons of this Garrison, will march out, being led by the Baron de Trogne in Person.

From the Amsterdam Courant, dated Dec. 14.

Maastricht, Dec. 11. Yesterday we had Advice from Liege and Verviers, that Limburg is invested by a Detachment of the Garrison of Liege, and that the Governour of Limburg being come out of the place with a Party, was cut off; but this requires confirmation. 'Tis certain however, that 250 Men of each Battalion, and 80 Horse of each Squadron of this Garrison, are order'd to hold themselves in a readiness to march.

From the Amsterdam Courant, dated Dec. 16.

Liege, Dec. 12. The Detachment which was sent out from hence some days ago, advanc'd within 50 paces of Limburg, designing to intercept a Party that 2 days before made an Incursion into the Country of Juliers; and likewise to take a View of the Fortifications of the place, for which purpose some Ingeniers went with them; but the Party which they hoped to cut off, was return'd into the Town before our Troops came before it. So our Detachment return'd this Evening; the Enemy did not Sally out, but contented themselves with firing a few Cannon shot at them.

From the Paris Gazette, a la main, dated Dec. 11.

Letters from the Army in Italy, confirm the taking of the Abbey of San Benedetto, and that the Monks have engag'd to send the 5000 Sacks of Corn whither the Duke of Vendome shall order them. They add, That 'tis thought the Enemy will abandon the Country of Mirandola, there not being Forage sufficient for their Horse; and that Governolo will be attack'd.
